Cecilia 71" Buffet in Deep Green

The Vibe: Structured. Sophisticated. Bold.

The Details: If you are looking for a piece that speaks the language of modern architecture, look no further than the **Cecilia Green Buffet**. This piece creates a focal point through contrast: the visually heavy, rigorous lines of the green cabinetry are sliced through by slender, elegant vertical metal segments.

It is more than just storage; it is an "outstanding element" that elevates the aesthetic of the entire room. The lush green tone brings the outside in, while the metallic accents reflect ambient light, adding a dynamic energy to your dinner parties.

Tech Specs:

- **Weight:** 202 lbs (Heavy duty construction)
