The Rachel Modern Sleeper Sofa is a perfect combination of Scandinavian quality, style, and comfort! With a clever mechanism, the Rachel Convertible Sofa transforms into a very comfortable king bed. Convenient, it can also be used as a single twin bed on both seats, at the same time the other one can be used as a regular sofa. The sofa itself is actually comprised of two independent memory foam mattresses. Its framework is strong and built to last from sustainable manufacturing processes. The Rachel is wrapped in high-quality fabric, which is soft and extremely comfortable to sleep on. Because the bed opens forward, the sofa can be placed against the wall of your room and does not need to be moved off the wall to open. The Rachel is a fun smart piece that gives you many possibilities while bringing comfort and elegance to your modern room!

Also available in King, Full and Twin sizes.
